

Indicators

Blade Lantern (Flush Mount)

Blade Hall Lantern

The Blade Hall Lantern provides a contemporary design of hall lantern, ideally suited to prestigious office and apartment buildings. The glass effect lantern creates an illuminated arrow that floats in space to identify that a lift is about to arrive.

The Blade Hall Lantern is available for both flush mount (as shown) and surface mount fixtures, with a range of arrow colours.

The unit's design looks 'custom' but this is a standard production unit that offers excellent value for money.

Key features

- Provides your lift with custom appearance
- Innovative design, with arrow floating in space
- Three size options
- Meets DDA requirements
- Range of arrow colours
- Mounting options
