## En-Pad type 4

### En-Pad type 4

The new En-Pad has been designed to meet the requirements for destination control type lifts with keypads and is ideal for apartment buildings, offices, hotels and many other applications. The keypad fully meets the requirements of A117.1, having 16 mm high legends, pip on the 5 and three pips on the wheelchair chair symbol. The En-Pad has a very low profile and can be easily incorporated into landing fixtures. It also meets the category 2 requirements of European vandal resistant lift code EN81-71 and EN81-70.

### Key features

- Numerical keys are stainless steel with black moulded through flush legends
- Star key is stainless steel with green moulded through flush legend
- Minus key is stainless steel with red moulded through flush legend
- Wheelchair key is stainless steel with blue moulded through flush legend with three pips
- Number 5 key with a pip
- Satin chrome die-cast body
- High contrast between legend and keys
- Vandal resistant
