System Setting	Back	Work Mode	
System Control	SINGLE		
🥪 Network Setting			-it-
Date And Time	() LAN		
Power On/Off	O WIFI		
🔜 Strategy Time			•
File Management	(@) 3G		atl
🔁 Exit			

- 7. Press
- 8. Select Exit (select yes if it asks to reboot)
- 9. Connect aerial or Network cable (depending on connection option)
- 10. For 3G you may need to change the settings for the APN (for help with this contact Thames Valley Controls)
- 11. Switch off the mains power to the screen and power it back up

12. When the screen boots up, check the screen connects and can login ok (there should be a tick by login and connected – see below)

13. Contact Thames Valley Controls - 01352793265 with the serial number and site name/location, we will add it to the portal and send a test playlist to it.
