

# Mercury - Remote Information Display

All in one messaging and information system

## Connectivity

## Mercury - Remote Information Display

Our digital screens have an integrated Android network media player; making installation a breeze.

You can easily send scrolling text, static text, web-page feeds, social media feeds.

An invaluable tool for teams and individuals who are responsible for notifying residents, visitors and other building users of current situations, planned maintenance and other notifications.

The MERCURY reduces manual labour activities thus saving money. In addition improves customer service with the added bonus of generating revenue of third party advertising campaigns providing further pay back on system purchases.

## Features & Benefits
