

# Handwind 02 Display Unit with optional switch

## Features & Benefits

- Easy to use - ideal for inexperienced users
- Audible floor level buzzer
- Battery backed
- Easily programmable
- Bright LED for low-light conditions

## Handwind Display Unit

HW02 is a low-cost, high-performance digital handwinding position display for use with the Ethos controller.

The easy to use, compact unit is ideal for inexperienced users to confidently know when the lift is at floor position.

Featuring a low-energy, high-intensity OLED display, floor position, door zone and status display messages are clearly presented.

When the lift is hand wound into floor level, the HW02 will sound a buzzer and flash the floor position. Clear, full text will indicate In Door Zone.

The unit is fitted with an SD card to store floor legend text, this can be easily changed using a PC.

HW02 without switch W155mm x H155mm - part number 600.008132.1

HW02 with switch W215mm x H155mm - part number 600.008132.2
